5- She'll be early unless there is a traffic jam. (provided that)

C - Reading Comprehension

5. Read and complete the table:

People are trying to solve the problem of finding 'green energy' which is dean and does not cause pollution. Thus, plants are grown everywhere and can be used as food and fuel. Sunflowers are grown for this reason. An old solution in India is to dry animal waste and form it into bricks for burning. The Chinese improve on this and keep the waste until ft produces methane gas which is used for cooking and heating.

Problem	Solution nowadays	An example	Indian solution	Chinese Improvement	Usage of methane

(1)	(2)	(3)	(4)	(5)	(6)
-----	-----	-----	-----	-----	-----

6. Read the following passage, then answer the questions:

In many countries today, a difficult question is being asked: Do we have the right to use animals in laboratory experiments? Using animals in medical research has many benefits. Animal research has enabled researchers to develop treatments for many diseases, such as heart disease. It would not have been possible to develop vaccines for diseases like smallpox without animal research. Every drug anyone takes today was tried first on animals. Which is more important, the life of a rat or that of a three year old child? Medical research is also an excellent way of using unwanted animals. Last year, over twelve million animals had to be killed because nobody wanted them as pets. The fact is that human benefit cannot be used as a reason for using animals in research, any more than it can be used as a reason for experimenting on other humans. Animals suffer a lot during these experiments They are forced to live in small cages and they may be unable to move.

Animals have the same rights as humans do; to be able to move freely and not to have pain or fear forced on them. We can use computer modelling instead of animals in research laboratories to save animals' life.

A) Answer the following questions :

- 1- Why is animal research useful?
- 2- How do animals suffer during experiments?
- 3- What other ways can be used instead of experimenting on animals?
- 4- Are you with or against using animals in medical research? Why?

B) Choose the best answer from a . b , c . or d :

- 5- According to the passage, some people support using animals in research because they think that.....
 - a) the life of people is more important than the life of animals.
 - b) animals are harmful creatures.
 - c) many people do not like animals.
 - d) animals do not suffer during experiments.

- 6- The idea against using animals in research is that.....
 - a) the life of animals is more important than the life of humans.
 - b) people should help to increase the number of animals.
 - c) researchers have to use animals in their medical research.
 - d) animals have the same rights as humans do.

- 7- An appropriate title for this passage would be
 - a) Scientific Research, b) Research Laboratories.
 - c) Animal Rights, d) Human Rights.

D - The Novel

7.A) Answer the following questions :

- 1- Why was Ayman surprised when he saw the spider?
- 2- What was the root of echinacea negra used for?
- 3- Why didn't Professor Jones want to destroy the deadly spiders?

B) Read the following quotation and then answer the questions :

"I'm sorry. I was looking forward to that trip. I've been studying arachnids. for 25 years, but I'm still excited about finding unknown species."

- 1- Who was the speaker?
- 2- Why was he angry?
- 3- Will he find any unknown species of spider?

C) Complete the following sentences :

- 1- Ayman used the internet for.....
- 2- There was no antivenom for the black and yellow spider because
- 3- A female spider is much more dangerous than a male because
